

Following the Telex acquisition: Bosch founds new business unit Bosch Communications Systems—established January 1st, 2007

January 2007

PI 0001 ST Ed1

Burnsville, MN – Following the recent acquisition of Telex Communications by Bosch Security Systems in late 2006, the company announced that the title and structure of the Bosch organization that contains professional audio product brands Telex, RTS, Electro-Voice (EV), Dynacord, Midas, and Klark Teknik will be named **Bosch Communications Systems** effective January 1st, 2007.

The creation of **Bosch Communications Systems — a business unit of Bosch Security Systems** — sees Bosch poised to become one of the world's leading manufacturers and suppliers of professional audio, wireless, life safety and communication equipment. Bosch systems have been installed in a wide range of applications, such as large stadium and airport projects where customer demand for turnkey solutions combined with security systems is growing. Likewise, the recently acquired brands Telex, RTS, Electro-Voice (EV), Dynacord, Midas, and Klark Teknik are renowned for their role in the world's most critical, high-profile installations and events. Like Bosch, these brands carry significant cultural cachet and valued histories in research and development. For example, U.S.-based Electro-Voice (EV) celebrates its 80th Anniversary in 2007.

The creation of **Bosch Communications Systems** expands the breadth of Bosch Security Systems video surveillance, intrusion alarm, fire alarm and evacuation systems management, access control, and communications systems portfolio. With some 7,800 associates, the division is represented at more than 40 locations in Europe, the Americas, and Asia Pacific. The acquisition of Telex-related brands further expands the company's global presence.

The Bosch Group is a leading global manufacturer of automotive and industrial technology, consumer goods, and building technology. In fiscal 2005, some 251,000 associates generated sales of 41.5 billion euros. Set up in Stuttgart in 1886 by Robert Bosch (1861-1942) as "Workshop for Precision Mechanics and Electrical Engineering," the Bosch Group today comprises a manufacturing, sales, and after-sales service network of more than 280 subsidiaries and some 13,000 Bosch service centers in over 140 countries.

The special ownership structure of the Bosch Group guarantees its financial independence and entrepreneurial freedom. It makes it possible for the company to undertake significant up-front investments in the safeguarding of its future, as well as to do justice to its social responsibility in a manner reflective of the spirit and will of its founder. A total of 92 % of the share capital of Robert Bosch GmbH is held by the charitable foundation Robert Bosch Stiftung. The entrepreneurial ownership functions are carried out by Robert Bosch Industrietreuhand KG.
