

## JAZZ ON THE DANUBE – WITH EVI AUDIO

*Blue Danube or Danube Blues? B.B.King is coming ...*

One of the world's largest jazz festivals, 'Jazz on the Danube', runs from July 16<sup>th</sup> through the 18<sup>th</sup> this year. The venue is Straubing, Bavaria, so Telex Communications, Inc.'s European wing EVI Audio is playing at home...

**Straubing, Germany (July 2004):** Besides boasting a great and growing tradition of quality talent, the *Jazz an der Donau* (JADD) festival, now in its 18<sup>th</sup> year, is one of the eight biggest jazz festivals in the world. With another world-class line-up again this year, it's a status JADD is in no danger of losing.

In securing the services of blues legend B.B. King for the opening night, the organizers have pulled off a real coup. Rarely seen in Europe these days, the heavyweight blues hero – accompanied with his trademark Gibson semi-acoustic, 'Lucille', joins an illustrious list of jazz and blues legends that have graced the JADD festival over the years. King's presence will further enhance the cachet of the festival, along with the exuberant atmosphere and superb staging and sound equipment.

For Straubing-based EVI Audio, who will be providing the sound reinforcement equipment for another year running, the Jazz on the Danube festival is a home game. Last year the quality of the sound drew an enthusiastic response from

performers and public alike. "Since I've been handling this festival," commented the organizer of the jazz marathon, Ralph Huber, "I've never known the musicians to be as unanimous in their praise of a sound system." The sound team, led by Ingo Haasch, EVI Audio's Concert Sound Manager, are confident they can repeat their success this year.
