

TELEX PRO AUDIO GROUP & GULF COAST SOUND PROVIDE SOUND AT LDI'S TOUR LINK STAGES

ORLANDO, FL (November 17, 2003): The Telex Pro Audio Group and sound professionals Gulf Coast Sound (www.gulfcoastsound.com) are pleased to announce that they will be providing sound for Tour Link Stage 1 at this year's LDI show in Orlando, Florida. Comprised of Electro-Voice®, Midas®, and Klark Teknik® professional audio products, the stage will serve as a locus of show activity and product demonstrations in a critical, real-world setting. The sound system is comprised of (40) Electro-Voice Xlc compact-format line-array loudspeakers, (36) Electro-Voice Remote-Controlled DSP Precision Series power amplifiers (P1200 RL and P3000 RL), Midas Heritage 3000 mixing console (FOH), Midas Legend 3000 (monitors), Klark Teknik Helix EQ (FOH), Klark Teknik DN504 plus (FOH), DN514 plus (FOH), and EV-loaded proprietary monitors.

Larry Habetz, co-owner of Gulf Coast Sound, and FOH engineer for Tour Link Stage 1 commented: "We've never had an engineer walk away dissatisfied with this rig, that's for sure! In fact, they've ALL walked away smiling after driving the Midas/KT/Electro-Voice Xlc combo. It's sweet!"

Larry has provided sound for some very big names with this lethal triumvirate of EV, Midas, and Klark Teknik: Staind, Sevendust, Sammy Kershaw, Bela Fleck and the Flecktones, and Little Richard, to name but a few. For your chance to hear the system and chat with representatives from the Telex Pro Audio Group, please visit Stage 1 at the times below. For info on where the stage is located, please inquire at Booth #1401.
