ELECTRO-VOICE XLC LINE ARRAY & MIDAS HERITAGE 2000 GIVE WINNING PERFORMANCES AT JUNIOR EUROVISION SONG CONTEST

Copenhagen, Denmark (November 26, 2003): The first ever Junior Eurovision Song Contest took place at the Forum Arena in Copenhagen, Denmark on Saturday November 15th, 2003. The two-hour long televised event featured young contestants from sixteen European nations in a youth-oriented version of the perennially popular Eurovision Song Contest, which is almost 50 years old. The contestants performed their songs to a TV audience of over 100 million, all via a flown array of (54) EV Xlc 127+ enclosures and a Midas Heritage 2000 mixing console. Klark Teknik DN9848 loudspeaker processors were used for system control. Croatia won the competition with a song written and performed by 11 year-old "Dino." The production values for the event were high, as seen in the photos below, and the stylish stage sets were complemented by the compact and discrete Xlc line array - a rig whose powerhouse performance belies it's low profile. Nordic Rentals (www.nordic.dk) supplied the entire sound reinforcement system for the event.
