ELECTRO-VOICE® X^{LC}™ COMPACT LINE ARRAY SYSTEM, KLARK TEKNIK PROCESSING, AND MIDAS BOARDS WILL FEATURE PROMINENTLY AT AT&T JAZZ STAGE DURING NEW ORLEANS JAZZ & HERITAGE FESTIVAL

High Quality Audio Products Preferred to Capture the Sounds of a City/Culture Steeped in Musical Innovation

Burnsville, MN (April 18, 2003): The Telex Pro Audio Group is proud to supply much the sound reinforcement equipment used at the prestigious AT&T Jazz Stage during the 2003 New Orleans Jazz & Heritage Festival. From Electro-Voice power amplifiers to Midas mixing consoles, Klark Teknik processing, and Electro-Voice's Xlc compact line array loudspeakers, the festival will be a decidedly Telex Pro Audio Group affair, second of course, only to the fine music, food and libations. Attracting more than 500,000 visitors a year, the fest features the talents of thousands of musicians, craftspeople and culinary artists. For a total of ten days over two weekends (April 24- May 4), the New Orleans Fair Grounds Race Course will pound to a literal jambalaya of music – zydeco, Cajun, Afro-Caribbean, Acadian folk, blues, roots-rock 'n' roll and of course, all shades of the jazz idiom – from 11 a.m. to 7 p.m. daily.

Please stay tuned for a full-length story, customer/listener testimonials, and photography! We hope to see you down in 'Nawlins!
